संदेश

यह प्रसन्नता का विषय है कि 23 सितम्बर 2022 को 10th "Transmedcon 2022" उद्घाटन के दौरान "Transmedcon Indian Society of Transfusion Medicine" का वार्षिक राष्ट्रीय सम्मेलन इस वर्ष 23 सितम्बर से 25 सितम्बर 2022 के बीच आयोजित करने के लिए चिकित्सा महाविद्यालय इंदौर के ट्रांसफ्यूजन मेडिसिन विभाग को चयनित किया गया है।

मुझे यह पूर्ण विश्वास है कि इस वार्षिक राष्ट्रीय सम्मेलन में विभिन्न विषय विशेषज्ञों की चर्चा में महत्वपूर्ण निष्कर्ष निकलेंगे जो रक्तपूर्ति की उपलब्धता सुनिश्चित कर चिकित्सा जगत के लिए उपयोगी साबित होंगे तथा प्रदेश की जनता निश्चित रूप से इससे लाभान्वित होगी।

इस अवसर पर आयोजन की सफलता के लिए मेरी ओर से हार्दिक शुभकामनाएं। आशा करता हूँ कि इस आयोजन से देश/विदेश के ख्याति प्राप्त चिकित्सकों के अनुभव का लाभ प्रदेश के चिकित्सकों, चिकित्सा छात्रों एवं मरीजों और जन साधारण के लिए उपयोगी होगा।

MESSAGE

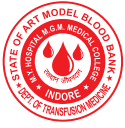

It gives me immense pleasure that Department of Transfusion Medicine, M.G.M. Medical College is organizing the **10th National Conference of Transfusion Medicine TRANSMEDCON - 2022** during **23rd to 25th of September 2022** at M.G.M. Medical College & M.Y. Hospital, Indore. TRANSMEDCON - 2022 provides an opportunity for meeting of National and International Delegates, Faculty members, Doctors, Post Graduates, specialists, Technician and others in the various research and development fields of Immuno-Haematology and Blood Transfusion. The conference offers a premise for global experts to gather and interact intensively on the topics of Advanced Immunohematology, Flowcytometry, Apheresis and Patient Blood Management. I hope eminent speakers will cover the theme from different perspectives. I am privileged to say that this conference will definitely offer knowledge for lifetime for all the participants present. The success of this Conference is solely on the dedication and efforts of innumerable people who started working on the preparations for almost a year in many ways to make this Conference become a reality.

I take this opportunity to express my special thanks and appreciation to all and wish TRANSMEDCON - 2022 a great success.

// MESSAGE //

I am pleased to know that the Department of Transfusion Medicine is organizing 10th Annual National Conference of Indian Society of Transfusion Medicine TRANSMEDCON – 2022 on 23rd to 25th September 2022 at M.G.M. Medical College, Indore. In the short span of time as a department, Transfusion Medicine has made its mark as a provider of quality blood, its product and many other pivotal patient managements in various scenarios. This conference has seen the convergence of renowned medical fraternity, academicians and technicians. I congratulate each of them for their efforts and contribution to the global think tank on the very important area of Immuno-haematology and blood transfusion. I am confident that this occasion will be used to explore new horizons in advanced immuno-haematology, flowcytometry, apheresis, patient blood management and dissemination of knowledge in this area.

// MESSAGE //

It is my proud privilege to welcome all the eminent faculty and distinguished delegates to the 10th Annual Conference of Indian Society of Transfusion Medicine TRANSMEDCON 22, the first physical conference of ISTM after the covid pandemic hosted by Department of Transfusion Medicine MGM Medical College Indore-the cleanest city in India in the last five years. The city is in the largest & most populous in the west central India in the state of MP known for 7 story Rajwada Palace & Lal Baag Palace which date back to Indore's 19 century Holkar dynasty. The main theme of the conference is Transfusion Medicine : Today To Tomorrow and accordingly the scientific program has been framed to cover all important topics of Transfusion Medicine in 13 scientific sessions, 2 panel discussions & young professional forum. The conference will have 240 record number of oral presentations & E-posters The ISTM Quiz for post graduate Students is also being organized during the deliberation of the conference. ISTM Awards will be given to Transfusion Medicine Professionals in recognition of their work. Four pre-conference workshops on various subjects of Transfusion Medicine are being held on 22 September, 2022 at various hospitals of Indore. I am sure the scientific deliberations of the congress are going to be beneficial to all attending the meeting.

I am thankful to all International & National Guest Speakers for sharing their expert experiences. I am thankful to all the members of the organizing committee especially Prof. Dr. Ashok Yadav-Organising Chairman, Dr. Sachin-Organising Secretary, Dr. Amrita Tripathi and to the executive members of ISTM for their efforts to make the conference a grand success. I am thankful to all the exhibitors for their participation & support. Once again I extend my cordial welcome to one & all.

// MESSAGE //

From the Secretary's Desk

Greetings from The Indian Society of Transfusion Medicine Secretariat.

The nostalgia of watching 10th National Conference of the society see the light of the day gives me immense joy and bliss. The society was conceived as a dream in Bhopal and through untiring efforts of the revered members is now the biggest platform of the transfusion fraternity of the country. I welcome all to the city of Indore which has been ranked as India's cleanest city five years in a row as per the Swachh Survekshan for the years 2017, 2018, 2019, 2020 and 2021. The conference has travelled to my home zone and to my home state of the country and a lot of effort has been put by the organizing team to have an academic feast. As a representative society of experts in the field of Transfusion Medicine and in its wider interest I have firm belief that the young budding Transfusion Medicine specialists have to be encouraged to present their research work and the society is giving platform to them. The conference is also an opportunity to understand the finer scientific commitment the future expects from them. This year we have record number of students presenting their research work and I hope that the magnitude grows from one year to the other.

The theme of this conference, Transfusion Medicine – Today to Tomorrow it self speaks that the future belongs to the effect blood transfusion and its science bears in treatment of patients. I hope that the amalgamation of education, friendship and solidarity of our members shall help the society grow further and our efforts towards the growth shall help our patients needing blood and its components.

Nearly 120 million units of blood are donated every year. However, this is not sufficient to meet the global need many patients requiring a transfusion do not have timely access to safe blood. Blood cannot be stored indefinitely, meaning there is a constant need for donations. Regular donations are required to ensure there is always a supply for those in need. Despite global need, donation rates differ around the world and some high-income countries see up to seven times more donations than low-income countries.

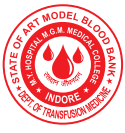

This is indeed a great coincidence that the conference falls during the "Raktdan Amrit Mahotsav" fortnight starting from 17th September, 2022 to 1st October 2022 where a message across for Blood Donation will be transmitted across the country. The art and science of Blood Donation is indeed the foundation of our work and my best wishes to all colleagues for conduction of the Raktdan Mahotsav.

Let the following slogan flow through us to the fellow country men :

Contribute in saving precious lives | Donate Blood | Join the noble cause of Humanity

// MESSAGE //

On behalf of organizing team of TRANSMEDCON - 2022, I would like to thank all authors, patrons, and readers for their immense support and participation. Conferences have a strong zest to bring researchers together to discuss and enhance their knowledge in the respective domain. TRANSMEDCON – 2022 is not just a conference but a great meetup for all the great medicos. Such meetups always help us to collaborate with the people of interest. It gives me immense pleasure to write as the Organizing Chairman of the 10th Annual National Conference of Transfusion Medicine at M.G.M. Medical College & M.Y. Hospital, Indore, which turned out to be vibrant and zealous because of TRANSMEDCON – 2022. I am stunned and amazed by this exuberant aura of technology and happy to see the efforts taken by the current generation and of course the diversity was something that left me awestruck. I appreciate the efforts taken by all the researchers and wish them best of luck for their future success.
